EDUCATION

Bachelor of Technology in Computer Science Engineering - Internet of Things

May 2025

Aditya College of Engineering and Technology, Surampalem

CGPA: 7.3/10

PROFESSIONAL EXPERIENCE

Coding trainer - Computer Science

June 2025 - Present

Aditya Degree and PG College, Kakinada, India

- Delivered Training in Data Structures Algorithms, Python, OOP, and Problem Solving to 100+ undergraduate students, enhancing coding proficiency and analytical skills
- Mentored students for technical interviews, coding assessments, and campus placements, focusing on time complexity, recursion, STL, and interview-oriented DSA.
- Designed structured, assignment-driven curriculum and conducted hands-on coding labs aligned with industry and recruitment standards.
- Organized coding contests, mock interviews, and technical workshops to strengthen placement readiness and competitive programming culture.

AWS Cloud Intern

June 2024 - August 2024

Technical Hub (Remote)

- Gained Comprehensive hands-on experience with AWS core services including EC2, S3, IAM, VPC, Lambda, and RDS for cloud infrastructure management and deployment
- Configured and deployed virtual servers and cloud storage solutions for development and testing environments following industry best practices
- Implemented security groups, network configurations, and IAM access control policies Adhering to AWS security best practices and compliance standards
- Leveraged GitHub, Jenkins, Ansible, and Docker to streamline continuous integration and automated deployment processes, improving development efficiency and delivery speed

PROJECTS

Secure Server Deployment on AWS [\[GitHub\]](#)

June 2024 - August 2024

Technologies: AWS VPC, EC2, Load Balancer, Auto Scaling, NAT Gateway

- Architected and deployed secure server infrastructure in private Subnets with restricted internet access to enhance cloud security and protect against unauthorized access and Cyber threats
- Designed multi-availability zone VPC with NAT Gateway, Application Load Balancer, and Auto Scaling Groups ensuring high availability, fault tolerance, and automatic scaling capabilities
- Configured public and private Subnet architecture optimizing network performance, security posture, and resource isolation following AWS Well-Architected Framework Principles
- Applied AWS networking and security best practices for efficient server deployment and traffic management

JMS Education Center Website [\[Live\]](#) [\[GitHub\]](#)

December 2025 - February 2026

Technologies: HTML5, CSS3, JavaScript, GitHub Pages

- Designed and developed a responsive educational website for JMS Education Center to provide admission guidance, course information, and student support.
- Built mobile-friendly pages with modern UI, intuitive navigation, and optimized performance for a seamless user experience.
- Deployed the website using GitHub Pages and managed source code using Git and GitHub version control.
- Enhanced the institution's digital presence by presenting courses, admission details, and contact information in a professional and accessible format.

TECHNICAL SKILLS

Programming Languages: C, C++, Python, Java, JavaScript, HTML5, CSS3, SQL, MySQL

Cloud Technologies: Amazon Web Services (EC2, VPC, S3, Lambda, IAM, RDS, Load Balancer, Auto Scaling, NAT Gateway)

DevOps & Tools: Git, GitHub, Jenkins, Docker, Ansible, CI/CD Pipelines, Version Control

Databases: MySQL, Relational Database Management Systems

Core Competencies: Data Structures, Algorithms, Object-Oriented Programming, Cloud Computing, Networking

CERTIFICATIONS

- AWS Certified Cloud Practitioner** - Amazon Web Services Training and Certification March 2024
- IT Specialist Python** - Certiport IT Specialist Certification Program July 2024
- Microsoft Certified: Azure Fundamentals** - Microsoft Azure Certification Program

ACHIEVEMENTS

- Earned 5-star ratings in Python, C, and C++ on [HackerRank](#) platform demonstrating strong programming proficiency and problem-solving capabilities
- Solved 100+ algorithmic and data structure problems on [LeetCode](#) competitive programming platform
- Solved 500+ algorithmic problems on [GeeksforGeeks](#) platform showcasing consistent dedication
- Achieved maximum rating of 1545 on [CodeChef](#) competitive programming platform demonstrating expertise
